

# Smart Energy Analytics: Mobile-Optimized BI Dashboard

**Objective:** Adapt a desktop BI dashboard to a mobile-friendly version that maintains clarity, usability, and interactive features.

01

## Key Challenges & Design Solutions

Optimized layout for smaller screens, ensuring readability, touch-friendly gestures, simplified navigation, and fast performance for smooth mobile interactions.

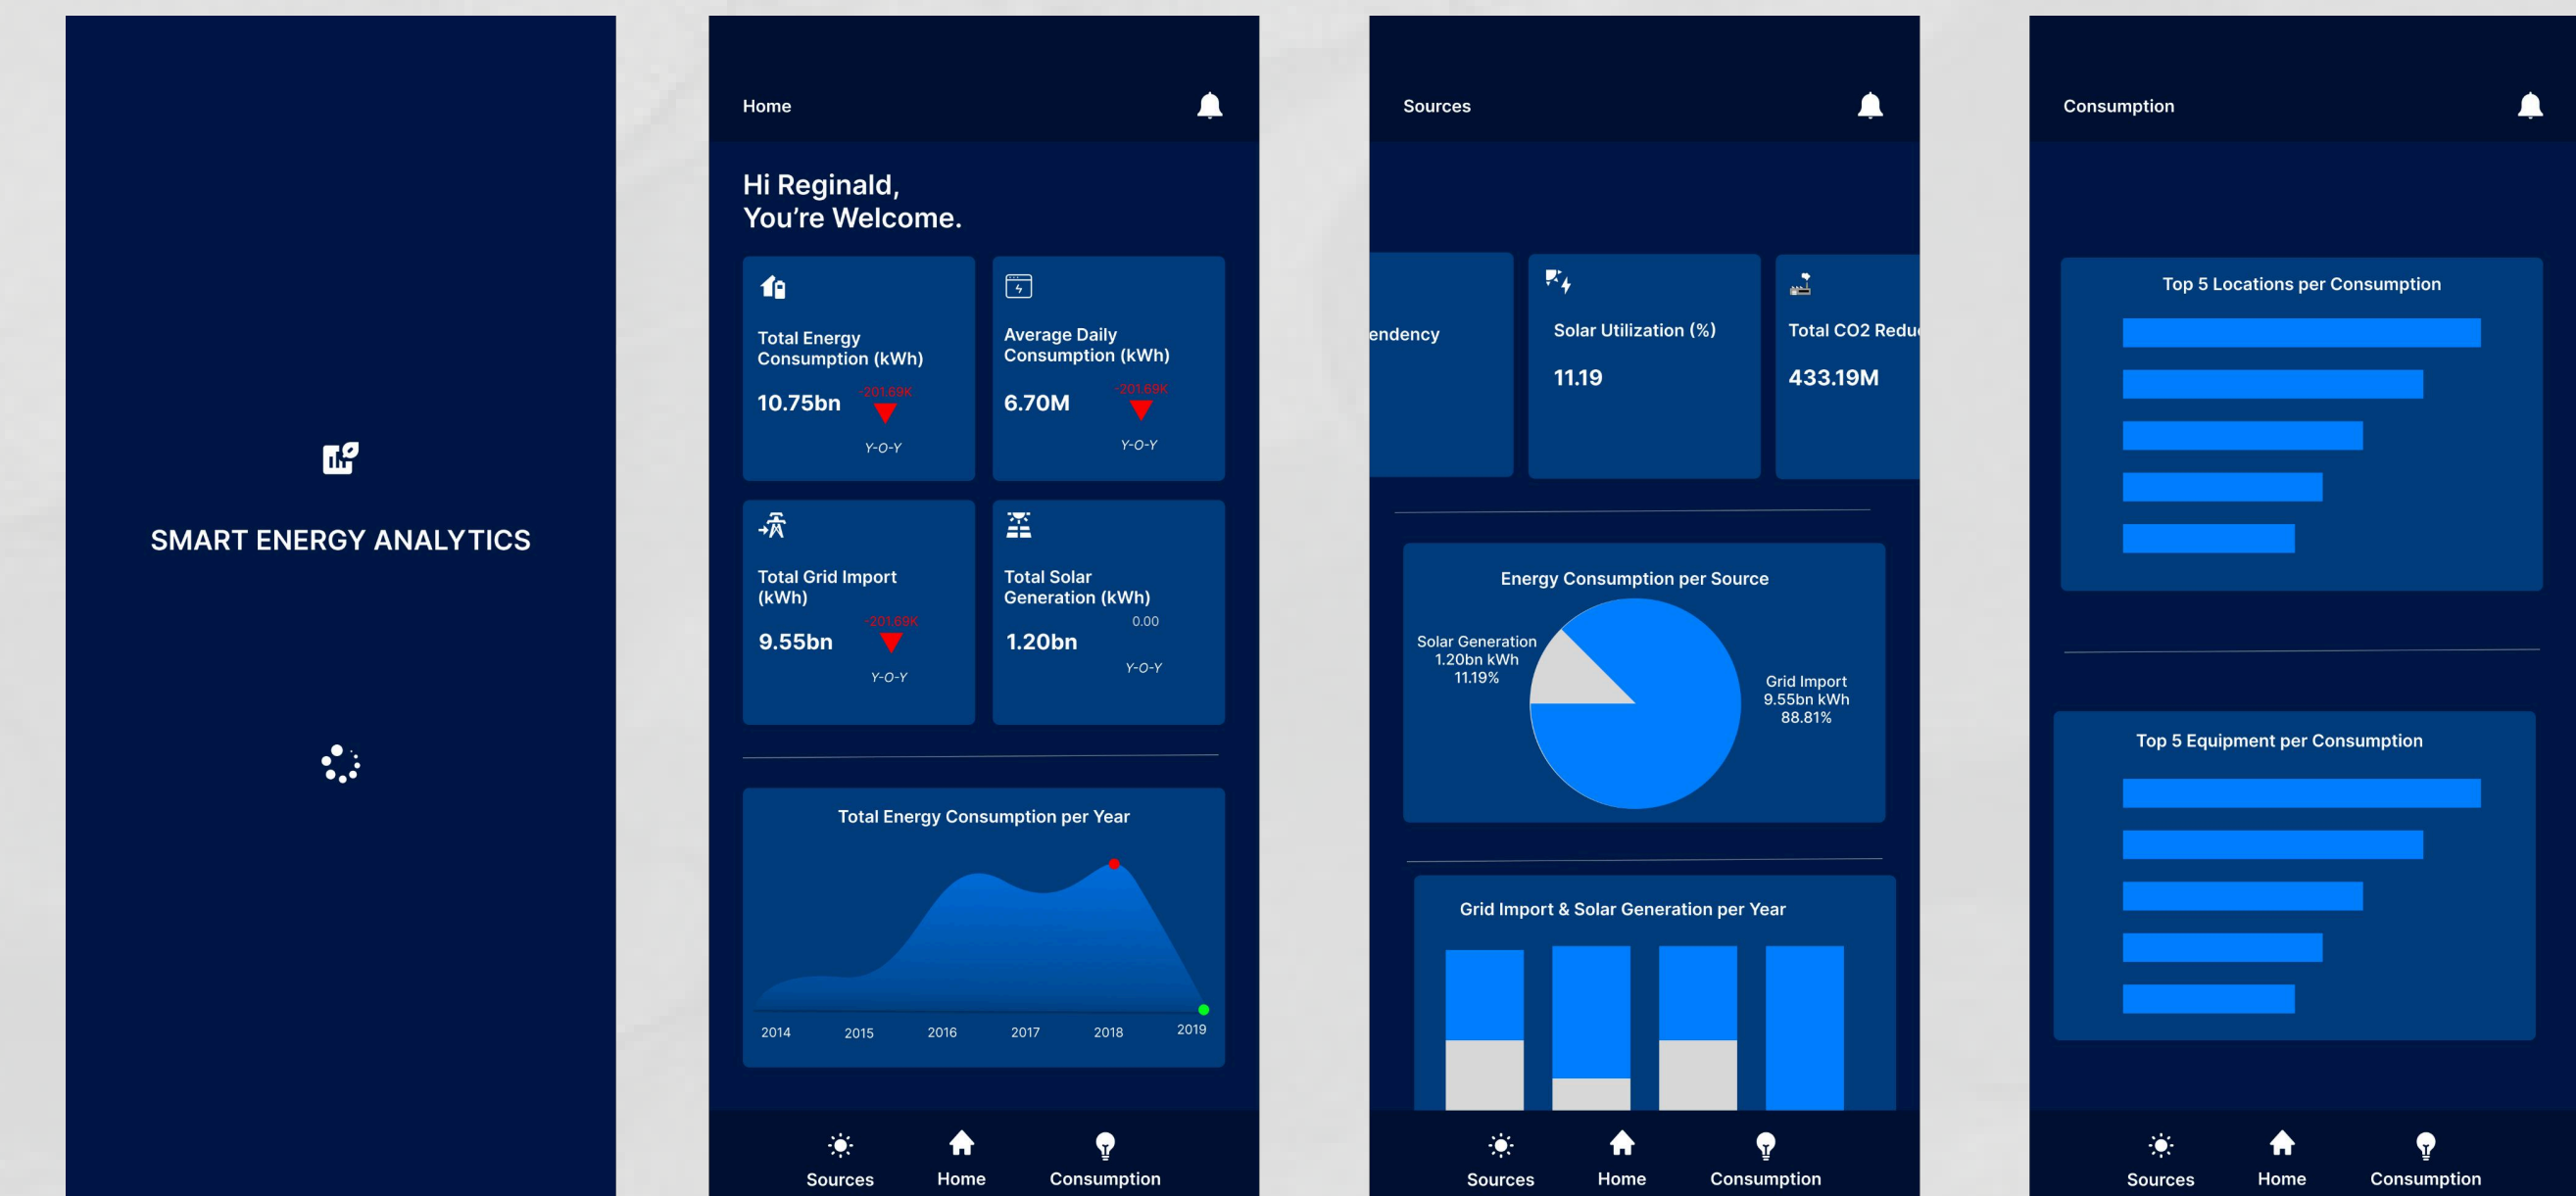

02

## Results & Next Steps

The desktop dashboard was successfully adapted to a mobile-friendly version, while still displaying relevant visuals.

**Next steps:** Adopting this design to other mobile platforms for broader accessibility.
